

# ROUND THE ISLAND

## SITE MAP AND AREA CLOSURES

### SITE NOTES:

Please see the Round the Island Course Map & Finish Line Traffic Map for further information about traffic flow and direction.

The RSA Pontoon will be open for use from 9:30am by returning crews ONLY to assist in clearing boats from the finish area.

Please do not queue to use the pontoon if an area on the beach is available for landing.

Half of the Rowing SA Lawns will be available for the preparation/wash down of boats (please bring your own equipment if you wish to wash down in this area).

The area immediately to the south and immediately to the north of the boat ramp will be closed for use by surf boats competing in this year's event. The surf boats will begin racing directly from the beach at around 10:40am and will row across the course and around the island. Please keep this area clear during this time.

The surf boats will return to this area when they are finished competing and will load their boats using the boat ramp. This area will open for use by rowing boats for the Junior Regatta once all surf boats have been loaded.

The Southern end of the Oarsman Reserve Car Park will be closed for the storage of surf boat trailers.
