

Celebrating 100 years of rowing

1919 - 2019

The Renmark Rowing Club welcomes you to the 2019 Riverland Regatta and Second Grade State Championships. This year marks 100 years of rowing in Renmark, a historic milestone which we are very proud of.

Our Club values and has great respect for the River Murray and its environs. As such, we are working towards creating a minimal waste event. We ask that attendees please make note of the following:

- We encourage all clubs and schools to make use of the reusable coffee mugs and crockery available near the food and drinks area.
- Bottled water in single-use plastic containers will **NOT** be available for sale. There is a newly installed refillable drinking water point on-site and we encourage participants to use it. The Renmark Rowing Club will also have water filled Centenary drink bottles washed and ready for use available for purchase.
- The Riverland Regatta is our Club's major fundraiser which we are fortunate to host every two years. Please support our Club by purchasing your coffee, food and cool drinks on site. Cash sales only.
- No car parking please along New Landing Way.

We would like to acknowledge the support of:

- Don Costello, landowner of the old Tower Tavern site, who has provided access to this land adjacent to the regatta site. Spectators are invited to view racing from the platform if they wish, whilst boat trailer parking is also available in this area.
- Grant Schwartzkopff, a local Riverland photographer, will be taking photos of the event.

Thank you for your attendance and support of this event and we look forward to an enjoyable weekend of racing.
