Rowing SA has made the decision to move to a new insurance broker, effective 31 May 2025.

We are excited to announce that V-Insurance Group will be our new insurance broker, marking the beginning of a fully integrated national insurance program that will include Rowing Australia and all other states under one unified scheme.

This transition to V-Insurance is designed to enhance the coverage available to our members while also ensuring greater efficiency in our insurance processes. The new program offers a comprehensive range of covers, including:

- Public Liability & Products Liability
- Professional Indemnity
- Personal Accident
- Association Liability (Directors & Officers Liability)
- Cyber Liability and Privacy Protection

We are confident that this change will provide a more robust insurance program for all clubs, schools and Members involved in rowing activities across South Australia.

There have been questions raised in the past regarding the requirement to hold Rowing SA's 'combined liability insurance' if their entity e.g. school has the same or higher level of insurance coverage for their rowing program and committees; and I am pleased to note that a reduced rate will be available for those who have this in place and who select this option. This will be captured in the new Affiliation Application process for 2025/2026 commencing 1 July 2025. Personal Accident coverage will still however need to be applied to all participants.
