Circular

Title:	**Oarsman Reserve - Temporary Trailer Parking and Boat Racks**
Document ID:	**C26013 Oarsman Reserve - Temporary Trailer Parking and Boat Racks**
Audience:	**All Clubs / Schools**
Date:	**19 October 2026**

Further to Circular C26012, the City of Charles Sturt has approved additional trailer parking and temporary boat racks on Oarsman Reserve while the River Torrens remains closed. We thank Council for their support in helping to accommodate clubs and schools during this time.

When the area will be available

The area is not yet available for use. Before it can open, Council's Field Team needs to:

- mark out the irrigation infrastructure in the area
- isolate the sprinkler system on the reserve

Once the site is ready, Council will issue the permit and confirm the start date. Rowing SA will notify all clubs and schools as soon as the area can be used.

Please do not park trailers or leave boats on Oarsman Reserve until you have received confirmation from Rowing SA. The exception is this weekend, when the usual permit conditions apply, so trailers can be parked on the reserve from Friday 3.00pm.

Registering to use the area

To help our planning, please let us know if your club or school would like to leave a trailer on Oarsman Reserve, use the boat racks, or both, by completing the form below:

- Oarsman Reserve Trailer Parking and Boat Rack Registration

Space on the reserve is limited. Once we know who is interested, Rowing SA will allocate trailer parking and rack space if needed, and will confirm arrangements with each club and school. Please only register for what you need, as registering does not guarantee a space.

Please submit your form by COB Wednesday if possible.

Once you have submitted your form, Rowing SA will complete the allocations and send further information.

If you have any questions, please contact the Rowing SA office.

Warm regards,

Christine Newberry
Operations Manager
